

## Application

The 120V to 24V transformer is used for converting primary voltage of 120 to secondary voltage of 24V. This transformer is shipped loose and is provided with a plate on the primary side for mounting on a standard 4 in. outlet box. This transformer is rated NEMA 1 for indoor use only.

Note: Transformers are shipped loose.

| Capacity | Primary | Frequency | Secondary |
|----------|---------|-----------|-----------|
| (VA)     | Voltage | (Hz)      | Voltage   |
| 60       | 120     | 50/60     |           |
