Quiet & Efficient Plenum Fans

Plenum fans are engineered to provide superior performance and reliability in commercial or industrial applications. They are designed for unhooused operation, resulting in a savings of the space normally occupied by the fan housing. Additional space savings are realized when multiple duct takeoffs are required. Ductwork is connected directly to the pressurized plenum without intermediate transitions.

Benefits

- Completely selectable in Greenheck's CAPS® program
- Suitable for single or multiple fan array installations
- Selectable for (N-1) redundancy applications
- All fans are tested to ensure vibration-free operation
- Lightweight and compact footprint
- AMCA licensed for Air & Sound performance

Greenheck India Private Ltd. certifies that the model APM-M plenum fans shown herein are licensed to bear the AMCA seal. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 211 and Publication 311 and comply with the requirements of the AMCA Certified Ratings Program.

Certified data may be found in [Greenheck's Computer Aided Product Selection program CAPS](#)

Quiet and efficient wheel

Highly efficient motor

Compact footprint

Standard Construction & Features

- Corrosion-resistant galvanized construction
- High efficiency airfoil wheel
- 12-bladed airfoil wheel provides reduced sound levels
- Performance up to 36,000 cmh (21,200 cfm) and 1,860 Pa (7.5 in. wg)

Building Segments & Application Types

We are known worldwide as a leading manufacturer of high-quality air movement, conditioning and control equipment. Today, our HVAC (heating, ventilation, air-conditioning) products are efficiently moving air in a variety of commercial and industrial spaces.

Offices and hotels

Automotive facilities

Shopping centers

Food processing

Metros

Hospitals

Mid and high-rise

Typical Applications

- Custom air handlers
- Built-up air handlers
- Packaged air handlers
- Parking garages
- General supply and return systems

Design and Selection Support

Enjoy Greenheck's extraordinary service, before, during and after the sale.

Greenheck offers added value to our wide selection of top performing, energy-efficient products by providing unique service programs.

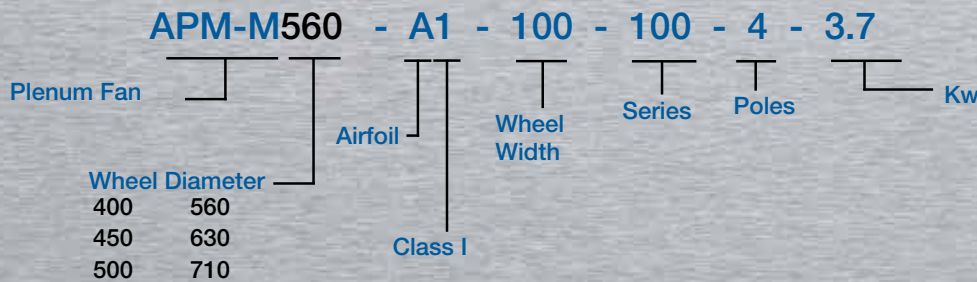

Greenheck's free computer aided product selection program CAPS® is rated by many as the best in the industry. CAPS helps you conveniently and efficiently select the right products for the challenge at hand.

Greenheck continues to take an industry-wide leadership position to affect positive global sustainability. We believe that providing education on products we offer contributes to reducing energy consumption and improving healthier indoor environments.
