

BULLETIN

MARCH 18, 2024 | BULLETIN 11-24

TO: All Greenheck Representatives
FROM: Mike Glodowski, Senior Application Engineer
Sam Armstrong, Application Engineer
SUBJECT: Webinar: New in CAPS® 4.44

Join us for a webinar covering CAPS updates for Dedicated Outdoor Air Systems (DOAS) and Tempered Air Products (TAP).

DOAS topics include:

- New A2L refrigerant (R-454B replaces R-410A) – EPA enforcement is January 1, 2025
- Obsolete models RV-110, RVE-180, and RVC-145 (no new selections)
- Split DX cooling phase-out
- 208-volt motor changes (impacts FLAs)

TAP topics include:

- New factory-mounted and wired outlet damper option for DGX, MSX, and Greenheat models
- Diffusers are now available for the hybrid centrifugal fan types D1 and D3
- New touchscreen option for microprocessor control to replace the remote display option
- Insulated/non-insulated outlet damper options have been removed for all make-up air models
- CAPS v4.44 will be the last CAPS version that PDX will be available for model DG

These updates will go live on April 1 with the CAPS 4.44 update.
