

Bulletin: 38-23

**TO:** All Greenheck Representatives  
**FROM:** Tyler Erdman  
Application Engineering Specialist, Axial Product Segment  
**DATE:** November 6, 2023  
**SUBJECT:** Motorized Damper Lifters Obsolescence on Upblast Models  
RDU, RBU, RBUMO

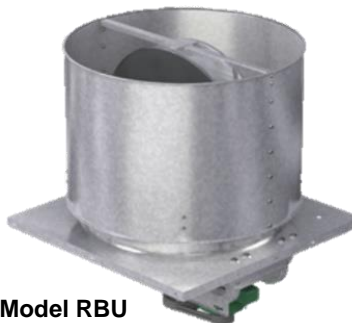

We are committed to providing you with the products you need to succeed in your markets. Sometimes this means removing accessories with extremely low demand. Doing this helps in our speed-to-market initiatives by allowing us to focus on the high-demand accessories you sell most. As a result, motorized damper lifters will no longer be available for the axial upblast product line (RDU, RBU, RBUMO) effective with the April 2024 CAPS® 4.44 release.

Please review and submit your marks before the April 2024 release as previously configured selections and new selections will no longer be available for ordering.

**Model  
RDU**

**Model RBU**

**Model RBUMO**

We are confident Greenheck continues to have the best value product portfolio your customers require while offering a wide variety of upblast accessory options. Please contact your regional salesperson or email [aifans@greenheck.com](mailto:aifans@greenheck.com) if you have questions.
